Coordinate professional volunteers to support or become navigators 	<ul style="list-style-type: none"> Income guidelines
Collaborators: care providers for young children, service providers for families and children, professional volunteers	

* Change the pediatric & family health vision as it is written in the 2012 Strategic Plan: *All community members will have continuous access to comprehensive care that supports health across the whole life span so children can grow up healthy.*

** Change the social/emotional development vision as it is written in the 2012 Strategic Plan: *Community members will have knowledge of child development, and promote resiliency in families, and value nurturing our children.*
